Arizona: Notice of Intent**AGENCY:** Bureau of Land Management, Interior.

ACTION: Clarification of a Planning Decision and Establishment of Supplementary Rules.

SUMMARY: The purposes of this notice is (1) to clarify and implement a decision made in the Arizona Strip District Resource Management Plan (RMP), approved in January 1992; and (2) propose supplementary rules to provide for the protection of persons, properties and public resources and to reduce certain user conflicts in designated recreation areas.

This limitation shall now be stated as, "No person or persons shall camp or otherwise occupy one area on public land within the Arizona Strip District for longer than 14 consecutive days in any 28-day period. Any site on public land within 30 air miles constitutes the same area for the purpose of this rule. Persons occupying

a regular campsite within the Virgin River Canyon Recreation Area are exempt from this rule." To protect resources, for public safety, or for other administrative purposes, an authorized officer may, by posting notification, close a given site to occupancy.

(2) The following is a designated recreation area for the purpose of applying the rules of conduct contained in 43 CFR 8365.2: Virgin River Canyon Recreation Area located in T. 41 N., R. 14 W. (G&SRM), secs. 14 and 15.

In addition to the regulations contained in 43 CFR 8365 the following supplemental rules will apply to the recreation area described above:

(a) No person shall park more than two vehicles at any one site not designated as a group site or parking area.

(b) Recreation area quiet hours are 10 p.m. to 7 a.m. No person shall operate noise-producing devices or by other means create noise enough to disturb other visitors during these hours.

(c) No person shall dispose of any waste water, including that commonly called grey water, from a vehicle or container onto the ground or into a body of water.

(d) Cutting firewood and damaging or removing vegetation is prohibited in designated recreation areas.

(e) Ground fires are prohibited during periods of extreme fire danger when on-site notices are posted.

(f) Recreation area waste receptacles are for the sole use of persons currently using the recreation area.

Exemptions from the above rules may be authorized by the Area Manager, Shivwits Resource Area.

Right-of-Way Application; New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice is to advise the public that the Albuquerque District Office, Bureau of Land Management (BLM), is proposing to issue a right-of-way grant to the Public Service Company of New Mexico (PNM) to extend a 115 kV Transmission line from the existing BA Station from the town of Placitas, New Mexico to Rio Rancho, New Mexico. The 115 kV transmission line is proposed to cross approximately 17.5 miles of private land and 0.660 miles of public land. The portion that crosses BLM land will be approximately 3480 feet in length and 50 feet in width paralleling the existing PNM WW-WN 345 kV line west and then south crossing NM 44. The proposed transmission line will tie into an existing line along the south side of Southern Boulevard in Rio Rancho, New Mexico.

SUPPLEMENTARY INFORMATION: The following described lands have been identified as suitable for this action pursuant to Title V of the Federal Land Policy and Management Act of October 21, 1976, (90 Stat. 2776, 43 U.S.C. 1761) and subject to stipulations issued by the BLM.

New Mexico Principal Meridian

T. 13 N., R. 4 E.,
Sec. 22, Lot 6 and 5E $\frac{1}{4}$ NE $\frac{1}{4}$;
Sec. 23, SW $\frac{1}{4}$ NW $\frac{1}{4}$.
Containing 3,990 acres.

The purpose of this right-of-way is to accommodate continued growth in the Rio Rancho area for the next 10-15 years and lessen the potential for sustained power outage problems in Rio Rancho and vicinity. This new line will also benefit PNM's bulk system by completing a third 115 kV tie between BA station and the Albuquerque load center. This third path will eliminate overloads to the RB 115 kV line, which have been identified under certain contingencies. In doing so, it allows PNM to defer a major rebuild of the RB 115kV line by 6-10 years.
